The committee appointed at the annual town meeting in March, 1919, on motion of the late W. O. Folsom, to investigate and recommend a Soldiers' Memorial, and who made a partial verbal report at the meeting of last year, desire to acquaint those interested with their completed work.

Additional solicitations to the \$3,300 reported at that time were made until 116 persons had pledged \$3,779.26. Every adult pledge was honored in full. The names and amounts given are on record in the Tucker Free Library, and are open to the inspection of any one. This record also contains an itemized account of all receipts and expenditures of the Committee.

To those who expected a larger and more elaborate monument that should compare with those erected in surrounding towns, previous to the World War, we would say that our contract was made and the local work performed, at the peak of high prices for labor and material. We hope we approximated as nearly to getting the worth of our money, as has the average citizen for the last year.

Your committee desire to express their appreciation of the generous spirit shown by present and former residents and others interested in Henniker, by whose co-operation the project has been successfully carried out.

E. N. COGSWELL,
GEORGE H. DODGE,
FRED A. PEASLEE,

Committee on Soldiers Memorial.

George H. Dodge, as treasurer of Monument Committee submits the following report.

REPORT OF BOARD OF HEALTH

During the past year the town has been unusually free from the ordinary contagious diseases, except scarlet fever, of which there have been reported ten cases in six different homes. In two of these cases the contagion seems to have come from out of town. In the others the source is unknown. There have been reported five cases of measles and two of tuberculosis.

Eight houses have been in quarantine for a longer or shorter time and six have been fumigated.

Four nuisances have been reported.

Two samples of water from private wells have been sent to the State Laboratory, and two samples from the town supply, all of which were found healthful. Two families have been substantially aided on account of quarantine.

The whole expense of the health department for the year has been \$190.66.

C. B. CHILDS, *Health Officer*.

The annual report of the Henniker Public Health Association from November, 1919 to October, 1920 is as follows:

688 nursing visits were made on 76 patients; obstetrical cases, 8; prenatal visits, 44; infant welfare visits, 41; school visits, 68; home visits to school children, 44; patients taken to clinic, 8. Observation and other visits, 291. All night visits, 39. Total, 1,112.

MARGARET C. O'HARA,
Public Health Nurse.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board of Henniker:

I herewith submit my fifth annual report as superintendent of Henniker schools.

Statistics.

Different pupils registered during the year 1919-20 was 258. Of these 183 were in the elementary schools and 75 in the high school.

The average membership for the year was 217.

Average daily attendance was 200.

Per cent of attendance was 92.

Number of visits by the superintendent was 228.

Whole number of children enumerated 5 years of age or older and under 16, in September, 1920, was 209—(107 boys, 102 girls).

Whole number of children registered in town schools September 30, 1920 was 222.

Rural Schools.

There are three rural schools opened this year—Westboro, Quaker Street and the Parker District. Hemlock Corner school was opened in September, but the teacher, employed as a substitute, could not be retained after a month and the school was closed. Since that time the pupils have been transported to the Central School. All these rural schools have good teachers, are doing good work and have 27 pupils.

In accordance with the vote of the district appropriating \$100 for hot lunches at the noon hour in the rural schools 44 children are being served. This includes those at the Central school brought in from the Hemlock Corner district. Not only the children, but the parents appreciate this act and I hope the district will make a similar appropriation this year.

Physical Culture and sewing have been given in these schools this year. Much interest has been shown in both these subjects and much good resulted. It was a step toward giving the outside schools some of the advantages of the Central school, and I believe has been greatly appreciated.

Repairs and Equipment.

The repairs for this year should include chemical closets for the West Henniker school, and more light and new desks for the Parker District school. If Hemlock Corner school is to be opened next September, the building needs complete remodelling.

A full set of maps is needed for the History of Civilization course in the high school.

A "program clock" installed in the high school building would insure an automatic signal for opening and closing school and the recitation periods much more promptly than the present method, depending as it does upon the memory of a busy teacher.

High School.

The small number of boys in the senior high school is a matter of grave concern. The one course Latin which is offered the boys, fails, and always will fail to interest all boys. Any effort to compel all to take a Latin course and expect them to be interested enough to continue it for four years, will be in vain. Many of our boys would make good mechanics, good accountants or good farmers, and be extremely

interested in one of these subjects, who would never be successful as a language pupil. If we expect to make the high school attractive enough to keep the boys there four years, some other course than Latin must be offered them.

Cost of Schools.

Schools, like other kind of business, have necessarily increased their running expenses in the past four years. Not only teachers, but books, supplies of all kinds, fuel and equipment have increased from 40 to 275 per cent., over the cost of four years ago. Newspaper print, the cheapest thing we can buy for arithmetic work, at one time this year had increased 275 per cent. over the cost of four years ago.

At this time, when there is so much discussion about school cost, it might be interesting and instructive to consider the following figures:

In 1916-17 our schools cost \$7,130.49. 70 per cent. of this cost was for teachers.

In 1919-20 our schools cost \$13,411.56, an increase of 88 per cent. over the 1916 cost. The teacher cost was \$7,995.81, an increase of 59 per cent. over four years ago, but only 67 per cent. of the whole cost. These figures show, that while teacher cost has increased, the cost of other running expenses of the school has increased in greater proportion.

There is so much discussion about the new Educational Law and its effect upon local taxation, let us consider how it effects this town. Henniker, under this law will pay the state this year toward its educational expenses \$1,380.53 state tax, \$480 per capita tax (approximately) and \$114.28 excess superintendent's salary. Total paid the state, \$1,974.81.

The school district will receive back from the state, as a result of this law \$4,153.83. In other words, Henniker receives \$2,179.83 more from the state than it pays and in addi-

tion, gets its superintendent free. It is evident that so far as Henniker is concerned, the law is a profitable thing.

The teacher shortage is still a problem, but not as serious as a year ago. It is probable there will be plenty of teachers for the larger schools, fewer for the rural schools, and those mostly inexperienced, and that salaries will remain about the same as now.

The attendance record in some of our schools is far from satisfactory. Parents should understand that, if children are to get best results from the schools and secure regular promotion, daily attendance is essential. They should also understand that the law requires them to see to it that their children be in school "all the time the schools are in session."

In very many schools of the country, it has become necessary for school boards to regulate somewhat the growing tendency of graduating classes to be extravagant in matters of dress. The idea that a girl must have one dress for Baccalaureate Sunday another for graduation and still another for the "ball" is altogether too prevalent, even in our own school. While there are always some who can well afford to have three or more dresses at such a time, there are usually more who can ill afford one, of the excellence called for by custom. The humiliation and embarrassment caused the latter in such cases, should, it seems to me, be good reason for adopting some kind of a remedy.

This year music is being taught in the schools by a special teacher. To supplement this work the school should have a victrola that could be used in each room with appropriate records for each grade. The musical educational possibilities of the victrola in the school room are no longer an experiment. It has long ago proven its ability to create an appreciation of the best music.

Your attention should be called to the possibility next year of having to secure a sort of utility teacher who could take

some of the classes from the overcrowded rooms of the primary, intermediate and junior high schools. A teacher, with 40 pupils in the primary grades from 6 to 8 years old has too much of a job to expect from her the best efficiency. The other rooms mentioned have had an enrollment this year of over 45. This is too many for best results.

In closing this report, I desire to express my appreciation of the faithful and valued work of the district nurse in our schools; of the faithful and efficient work of the whole teaching corps; and of the harmonious co-operation of the School Board in all my efforts to better the schools of Henniker.

Respectfully submitted,

FRED S. LIBBEY,

Superintendent of Schools.

LIBRARIAN'S REPORT.

The sixteenth annual report of the Tucker Free Library for the year ending January 31, 1921, is herewith presented.

There are now about three hundred twenty-five active subscribers. Shelves are reserved for the High School English classes from which their books for home reading are selected, and every effort has been made to co-operate with teachers and students.

We found our week at Durham very helpful as it not only gave us an opportunity to meet librarians from all over the state but also gave us many new ideas.

Among the gifts this year is a loom from Julia Flanders which was used by her mother, also an old fashioned comb and some candle moulds. Mrs. Henry Searles presented a tree gourd. Mrs. Roswell Brill, a pair of old fashioned hand wrought scissors and a case of flowers made from Tarpon scales. Mrs. Henry Baker loaned an old whip lash made from a fibrous wood. An old fashioned sugar bowl was presented by Mrs. Susan Cogswell.

Miss Helen Adams continues sending the Independent. Mr. Herbert L. Pratt has subscribed for the Independent Woman for 1921. Mr. Walter D. Brooks of Milton, Mass., has given the Open Road for 1921. The Dearborn Independent is sent to us every week. Charles Connelly gave two boys' books. Mrs. Alice Colby has given four books of fiction, Rev. R. T. Kenyon one book of fiction, Mrs. Jennie Dodge five books, and Harry B. Preston one book of fiction.

One case of books has been sent to Boston to be rebound.

The list of magazines is as follows: American, American Boy, Century, Country Life, Delineator, Everybody's, Good

Housekeeping, Harper's, Ladies' Home Journal, Literary Digest, Little Folks, Munsey, National Geographic, Outing, Pictorial Review, Saturday Evening Post, Scientific American Monthly, St. Nicholas, Woman's Home Companion, World's Work.
